01

Client-Ready Cover Page

Every PDF now opens with a QUOTATION cover — client name, plan title, validity date, and a giant signature block. Send it. Sign it. Done.

02

White-Label Branding

Upload your logo, add company name, address, GST, website. CargoLoad Pro branding vanishes. The download goes out as YOUR document.

03

Bulk Paste + Auto Units

Paste 200 rows from Excel in one shot. The extractor sniffs KG vs MT and MM vs CM automatically — no toggle hunt, no unit typos.
